BIG CROWDS WILL VISIT NEW ORLEANS

Coming of the President Will Help to Raise Quarantines.

RAILROADS TO RUN EXCURSIONS

The Yellow Fever Epidemic in Crescent City and Surrounding Country Is Over—People Rush Back to Their Homes.

New Orleans, Oct. 20—The railroads today are announcing low rates from all the surrounding country on the occasion of President Roosevelt's visit to New Orleans, and that fact is expected to give still further assistance in breaking up the quarantines that now exists against New Orleans, because of the widespread desire among Louisianans and Mississippians to see the president.

The wonderful improvement in the situation here, implicit faith being placed in the reports of the government officers, is also having its effect, and every day brings announcements of removal of restrictions. West Baton Rouge parish is the latest to throw itself open to the world and Plaquemines parish sends word that all her quarantines will be removed on Sunday.

The travel to the plantations continues heavy, many of the parishes now only requiring health certificates. The Marine hospital service has its hands full in furnishing them. Today's early morning train over the Southern Pacific carried 245 laborers, each armed with a certificate, right out of the city, bound for the sugar district.

The number of patients in the emergency hospital has now dropped to 18 and will be further reduced today. At Kenner hospital, which is soon to be closed, only five remain under treatment.

Touching the cost of wiping out the infection here Dr. White said today that it was much less than had been the expense of some other cities in fighting contagious diseases.

Dr. White was at Glasgow in the early nineties and with only 12 cases of plague in excess of $1,000,000 was spent. In San Francisco about $200,000 was spent in dealing with about 400 cases. In New Orleans about the same amount of money has been expended as was put out by San Francisco, though there were nearly ten times as many cases.

A dispatch from Rosetta, Miss., says that arrangements are progressing for a memorial service in the cemetery next Sunday for those who fell victims to yellow fever. During the height of the epidemic there it was impossible to have religious services with the funerals. Ministers from nearby towns have been invited to participate, but will not be exposed to infection. They will remain on one side of the quarantine lines and the Rosetta ministers and people on the other. Eighteen firms were represented here, some from New York, Chicago and other cities, in the bidding for the new Deneschaud hotel. The contract was let to a New York firm. While the figures are not announced, it is understood the bid approximated $500,000. Within a year New Orleans will have two immense new hotels.

Interest in the fever situation is now rapidly passing. People no longer avoid districts where infection prevails. That is due largely to the fact that the exceedingly few deaths of the last two weeks indicates that whatever fever now prevails is of a comparatively harmless character.

There have been no deaths reported in the past thirty-six hours.

The Emergency hospital will discharge half a dozen more of the patients today. It is considered probable that the hospital will be finally closed at the end of next week.

Three New Cases at Natchez.

Natchez, Miss., Oct. 20.—Three new cases of yellow fever reported this morning, two of these are white, one on Church Hill being a new focus.

Ten cases that have been reported as being just beyond the city limits, and charged to the city, have been charged to the county in the official reports.

Ten patients were discharged from the hospital this morning.

Better Outlook at Pensacola.

Pensacola, Fla., Oct. 20—Two cases of yellow fever deaths reported today. There is very little change in the situation, except that th eoutlook is better.

WANTED TO KILL SULLY.

Man Claimed He Was Trying to Collect Money Due Him.

New York, Oct. 20.—A tall, well-dressed, middle-aged man walked into the private office of Winfield Sully on Broadway yesterday, drew a revolver and pointing the weapon toward Mr. Sully, said:

"I am going to collect that money."

Mr. Sully turned quickly.

"We'll, talk it over," he said.

The visitor sat down a moment. Detectives, who had been summoned by a clerk, disarmed the visitor, who said he was Edward Brown, 38 years of age, a broker of Hempstead, L. I.

"Sully owes me some money and I thought this was the only way to get it," he said to the detectives.

Brown a few years ago owned a large country place opposite that of August Belmont at Hempstead. He sold his place and promoted several large deals in South America. While engineering one of these schemes, which he though would have made a large fortune, he had a slight sunstroke. This affected him seriously for some time, and at times caused him to act strangely.

He is a brother of Captain A. W. Brown, U. S. A., now in the Philippines. He was locked up. Sully said he had no dealings with Brown.

Many Officers Courtmartial.

Washington, Oct. 20—The annual report of General George B. Davis, judge advocate general of the army, shows that of the commissioned officers tried during the last year by General courtmartial, 35 were convicted while 356 were acquitted. The total number of trials before general courtmartial of 4,800 cases shows an increase of 551 cases over last year. This increase is mainly due to the fact that a large number of deserters have been apprehended and brought to trial. The number of convictions for desertions being 1,476 this year, an increase of 440. This gain is chiefly due to the increase of the reward paid to all civil officers for the capture of deserting soldiers. The number of men sentenced to dishonorable discharge was 2,529.

Robbers Get $30,000 of Bonds.

New York, Oct. 20.—Bonds of the People's Gaslight and Coke company of Buffalo, N. Y., representing a face value of $30,000, were stolen on Tuesday, it was learned early this morning, from a safe in the law office of Baldwin & Ward, No. 86 Lexington street, Brooklyn. Other bonds are the property of the eighth ward bank, which was merged into the Borough bank, both of Brooklyn. Baldwin & Ward, are attorneys for the latter institution, and have charge of the litigations for which the bank, through the merging, is involved. The police believe that the safe was opened by an expert.

Defrauded Street Car Companies.

New York, Oct. 20.—Abbott N. Woods, and his wife, Mary E. Woods, who are alleged to have defrauded street railway companies throughout the country by pretended accidents, were sentenced to three and two years' imprisonment, yesterday. The woman confessed. She was convicted of having purposely fallen from a car of which her husband was the conductor, after which she attempted to collect damages from the company.

No Irregularities in Pay Roll.

St. Louis, Oct. 20.—The statement from New York that traveling Western Union Telegraph company auditors had detected irregularities in the pay roll of the St. Louis office was not countenanced by Local Superintendent George J. Frankel today. He stated that the auditors found nothing irregular in the St. Louis office. "We use a double check system," said Mr. Frankel, which precludes the possibility of a padded pay roll."

LARGE BANK FAILS; CASHIER SUICIDES

Over Half of Million Dollars of State's Money on Deposit.

UNABLE TO REALIZE ON LOANS

It Is Claimed that the Cashier Had Approved Paper of New Enterprise, and When He Could Not Replace the Funds He Took His Life.

New York, Oct. 20. Concerning the closing of the Enterprise National bank of Allegheny, and the suicide of its cashier, T. Lee Clarke, yesterday, a dispatch to the Herald from Pittsburg says:

"It was learned late Wednesday night that the disaster to the Enterprise National bank was expected in certain quarters. Plans for an exposure of the trafficking in state bonds, it is said, were laid weeks ago. Mr. Clark was cognizant of this and talked over the matter with several of the directors a few days ago. The cashier was told by the directors he would have to meet the paper obligations of the institution negotiated through him, and he promised to insure the bank against all loans for which he was responsible. The supposition is he was unable to accomplish this, and fearing the consequences, took his life.

"Although bank directors only acknowledged having $600,00 of the state's funds, the assertion was made by one of the bank officials that the enterprise had more than $1,000,000 state money on deposit when the extensive loans were made.

"Clarke was associated as the treasurer with former State Senator Andrews and Francis Torrence, who, according to President Gwynner, were borrowers of the bank, in the Santa Fe Central Railway company, incorporated in New Mexico in 1891. The stock of the corporation has never been marketed. This road was built by Messrs. Andrews and Torrence. Cassier Clark was also a heavy investor in Mexico and New Mexico silver mining stocks, according to Mr. Gwynner.

"At the last election Mr. Andrews was elected as a delegate from New Mexico in congress and it is asserted he aspired to be senator from New Mexico when that territory is admitted to statehood. Although Mr. Andrews is now delegate from New Mexico he retains a residence here in a apartments in the Hotel Schenley. Mr. Andrews arrived here yesterday from New Mexico but refused to talk about the Enterprise bank's trouble."

When advised of the statements made by the president of the Enterprise National bank, that the closing of the doors was due to loaning of state's money to politicians, Homer L. Castle, candidate for supreme court on the Prohibition ticket, who has been campaigning the state in company with W. H. Berry, Democratic Prohibition candidate for state treasurer, said:

"I am sorry. The life of a good man is a terrible price to pay for what has gone on. We have been saying that these conditions existed, but we could not get behind the bank doors. Now a pistol shot has opened them and reveals paralyzing conditions. Nobody knows now what will follow."

Investigation in Progress.

Pittsburg, Oct. 20.—The investigation of the Enterprise National bank of Allegheny, Pa., whose doors were closed yesterday afternoon, by a comptroller of the currency following the sensational suicide of L. E. Clark, the cashier, is making progress.

During the early hours of today, John Cunningham, national bank examiner, who was appointed receiver of the institution, during his investigation, assisted by a large clerical force, labored steadily in an effort to unravel the extent of the bank's financial embarrassment.

According to the statements of President Gwynner, the bank, through Cashier Clarke, has furnished most of the funds used to float the Santa Fe Central railroad and the Pensylvania Development company, i nwhich former state Senator W. H. Andrews and Arthur Kennedy and Francis J. Torrance were deeply interested together with Cashier Clarke. The two projects are allied ones. Former Senator Kennedy is president of the Development company, and former Senator Andrews is president of the railway.

State Officials Say Nothing.

Philadelphia, Oct. 20.—Senator Penrose as asked last night how he accounted for the failure of the enterprise National bank in Allegheny:

"I do not know a thing about it," he answered. "I did not even know it had failed. I don't owe that bank a dollar. I don't know a thing about that bank or its failure."

Mr. Pennypacker was asked how much money, if any, the state had a chance to lose by the failure.

"I don't know anything about it," answered the governor. "That matter is entierly within the jurisdiction and under the control of the state treasurer."

EARNINGS OF ALABAMA ROADS.

Report of Commission for Year Ending June 30, Is Given Out.

Montgomery, Ala., Oct. 20.—In the report of the Alabama railroad commission for the year ending June 30, last there are some interesting figures, and though many of them have been printed before they will be of profit by way of review. It is shown by the report that there are at the present time in the state 5,672.14 miles of track of all kinds—main line, 4,495.94, yard track and sidings, 1,138.99 and double track, 37.21. The increase of mileage over the year before was 235.26. The total employes of all the lines is 23,407.

It is shown by the report that the total earnings of the roads in the state for the twelve months indicated was $28,222,829.72, operating expenses, $21,379,412.96, leaving net $6,966,676.13. From this is reduced deficit of $123,259.37, leaving the actual total net earnings $6,843,416.76.

The gross earnings of the Alabama roads per mile is $4,975.69, operating expenses per mile $3,739.19, net earnings per mile, $1,206.50. The percentage of total operating expenses to total gross earnings in Alabama is 75.

Alabama Man Suicides.

Columbus, Ga., Oct. 20.—The remains of W. C. Beck, who died in this city from the effects of having imbibed two ounces of laudanum, were carried this afternoon to Opelika, Ala., his home, and the funeral will take place there today. The coroner's jury returned a verdict that "We, the jury, find that the aforesaid came to his death from poisoning by laudanum, administered by his own hand or parties unknown to the jury." The theory of murder is not generally entertained, as there is no known reason why those who were with him during his last few hours, which were spent at the house of Julia Pitts, a white woman, in whose room his death occurred, should have desired his death.

Confessed to Forgery.

Brunswick, Ga., Oct. 20.—B. K. Blackburn, the young white man who was arrested in the National bank of Brunswick, while in the act of cashing a bogus check, is wanted by the authorities of Leakesville, Miss., on the charge of forgery, and Officer Sam Goins, who captured him, left this morning with the forger. Blackburn, while in the Glynn county jail, made a full confession of his wrong doings. He completely broke down and, sobbing like a child, told of his many illegal acts in obtaining money.

Imprisoned in Nicaragua.

Philadelphia, Oct. 20.—Frederick W. Murphy, a Philadelphian, is in a Central American prison, unknown to most of his relatives and friends here. He was convicted of killing his guide last March and was sentenced to ten years in jail at Managua, Nicaragua. His aged mother and his brother, who live in this city, are said to be anxious as to his state. The state department at Washington has investigated the case thoroughly through Consul Murray, but has not made public the result of its inquiry.

ROYALLY WELCOMED IN NORTH CAROLINA

President Roosevelt Greeted By Music and Cheers.

DELIVERS SPEECH AT STATE FAIR

The Presidential Party Arrived on Schedule Time at the Capital of the Tar Heel State—Prominent Citizens Meet Them.

Fair Grounds, Raleigh, N. C., Oct. 20.—With the music of the band and many cheers greeting him, President Roosevelt in his special train of four cars, pulled into the union depot in Raleigh this morning promptly at 9 o'clock.

Secretary Loeb first came on the platform. President Roosevelt soon appeared, with Mrs. Roosevelt close behind him, and the band made more music.

A reception committee of one hundred citizens and Lieutenant Governor Francis D. Winston, welcomed President Roosevelt to the state in the absence of Governor Glenn, who is in the city of Greensboro at the funeral of his brother.

All the receiving party were presented to President and Mrs. Roosevelt.

There were thousands of people in and about the depot as the presidential party came to the street. There was a volley of cheers, which rose again and again, as the president passed in the street in his carriage bowing to the right and left, standing and waving his hands in pleasant greeting to the little children.

Bridal roses were presented to Mrs. Roosevelt by William, the young son of the late Lieutenant William B Bagley and by Worth Bagley Daniels, nephew of Ensign Worth Bagley, of the Spanish-American war, and son of Josephus Daniels, Democratic National committeeman from North Carolina.

The visit to the senate chamber was for the particular purpose of having the president, on behalf of the North Carolina Literary and Historical society, present a handsome $500 gold loving cup, studded with North Carolina gems, to John Charles McNeill, of Charlotte, as a reward for having produced the best piece of literature in the state during the year. This cup is given by Mrs. Lindsay Patterson, of Winston, in memory of William Houston, of Philadelphia.

The parade was headed by a battalion of mounted policemen and consisted of a band, military companies interspersed between the carriages, the presidential party, the reception committee and invited guests.

About the president's carriage, in addition to the five secret service men were a special detail of the staff of Governor Glenn.

The residences, stores and public buildings were profusely decorated, and the streets were roped from curb to curb. Both sidewalks were jammed with people, while every available window and piazza was occupied by thousands who cheered from time to time.

The procession passed to the state capitol, where in the senate chamber were awaiting delegations of many ladies and gentlemen of the state, supreme court officers and others. During the ceremony an interesting event was the presentation of a handsome bouquet of carnations.

Judge Overrules Demurrer.

Chicago, Oct. 20.—Federal Judge Humphrey gave a divided decision on the demurrer of the meat packers, charged with illegal conspiracy. He overruled the portion of the demurrer in which the packers attacked the odd number counts, charging conspiracy in restraint of trade. The demurrer to the even numbered counts charging monopoly was sustained.

Prince of Wales Visits India

London, Oct. 20.—The Prince and Princess of Wales started on their six months' tour of Italy today. King Edward, Queen Alexandra and other members of the royal family and the cabinet ministers bade them farewell at the railroad station.

A TRIBUTE TO GEO. W. MOYERS

A True Patriot and a Devoted Friend of Florida.

HE WENT WHERE DUTY CALLED

A Loyal Friend to Kirby Smith Chapter, Which Pays a High Compliment to His Memory—Sympathetic Resolutions on His Death.

A special meeting of Kirby Smith Chapter, U. D. C., having met at the residence of Mrs. A. J. Cone to take official notice of the death of Mr. Geo. W. Moyers, a brave and loyal Confederate Veteran, a warm, devoted friend and co-worker with this Chapter, which sad event occurred in Jacksonville, Florida, on the morning of October 6th, 1905, with unfeigned regret we lovingly tender in sadness of spirit, the following tribute to his memory:

One by one, the brave defenders of the South are slowly but surely "Passing Over the River" to join their comrades in the shadowy beyond, in the "Bivouac of the Dead," where valor, patriotic devotion to duty, and matchless heroism are the common heritage of all true Americans, the wonder and admiration of the world, to commemorate which this order is organized and lovingly dedicated.

His untiring labors, helpful suggestions and simple devotion to this Chapter were conspicuous in life, and now he is no more, our hearts beat warmer with the truest and tenderest emotions as memory recalls his every act of kindness, his tender solicitation and grateful services to us in all our enterprises, and his fatherly and dignified bearing to this Chapter collectively and individually.

Son of the Old Dominion State, whose bosom beared to the fierceness of contending armies, drank deep of the crimson red, he gave with cheerfulness and alacrity his best services to the cause of our Sunny Southland. He was true to Southern institutions, history and traditions, yet he loved his common country.

As a citizen, blending the virtues of honorable dealing with his fellows, forbearance and charity to all, he exemplified the highest type of Christian life. Malice and envy had no place in him. Broad-minded, liberal and tolerant, his convictions were strong and fearlessly maintained. Endowed by nature with a clear and discriminating mind and judgment, which the experience of years ripened into wisdom, he seldom erred in his conclusions.

As a friend, devoted and true. A neighbor, warm hearted and hospitable; but it was in the sanctuary of his home-life his true character is shown in loving companionship, adorned by every social virture, the gentle dignity and suavity of manner, a benediction to his family. A husband affectionate and kind, a tender and indulgent parent; Therefore, be it

Resolved, That in the death of Veteran Geo. W. Moyers Kirby Smith Chapter has lost a true and tried friend; that his family's loss is great; likewise our own. Every sentiment of our being so stirred with the sincerest and tenderest sympathy for each member of the family. To Mrs. G. W. Moyers, first Vice-president of Kirby Smith Chapter at the present time, and his daughter, Mrs. Turner Brewer, both of whom are beloved members of this Chapter, we as a Chapter extend our sympathy and consolation; whose warm hand-clasp and fraternal greeting we have so often and long enjoyed. To the young men of the family, who have lost forever paternal advice, we urgently commend the life example and character of father for their emulation, as the richest heritage.

Resolved, That these resolutions be spread on the minutes of this Chapter, a blank page be inserted to his memory, and a copy of the same be forwarded to each member of the family.

Received and approved this 19th day of October, A. D. 1905.

Express Agent Is Captured.

Bridgeport, Conn., Oct. 20.—Edward G. Cunliffe, wanted in Pittsburg, Pa., for the robbery of $101,000 in cash from the Adams Express company was arrested here today. He is said to have made a clean breast of the matter to Pinkerton detectives and to have expressed his willingness to return without extradition papers.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of **Swamp-Root** is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

SENSATIONAL DEVELOPMENTS.

The Possibility is that There May Be Some Arrest for Perjury.

New York, Oct. 20.—The possibility of an arrest for perjury in the evidence given before the legislative insurance investigation committee increased the interest in today's session of that body.

The expectation of an arrest grew out of the action of the committee yesterday when assistant District Attorney Rand at the conclusion of the testimony of George Plunkitt, who had declared he did not sign a voucher for $901 for legal expenses to which his name wa sattached. The voucher had been paid by the Mutual Life Insurance company. This evidence was followed by testimony showing that other vouchers for legal expenses had been used to collect funds from the Mutual Life Insurance company for the maintenance of a house at Albany, where the Mutual Life Insurance company's agent was quartered and where members of the legislative insurance committee were entertained.

Further disclosures on this line were anticipated today. When the hearing was resumed today Richard A. McCurdy, president of the Mutual Life Insurance comyany was recalled to resume his testimony as to the connection of the Mutual Insurance company with the trust companies which were being investigated when the committee adjourned yesterday.

A list of the bonds and stocks owned by the Mutual Life Insurance company on June 30, 1905, was presented for identification and then the relation of the Mutual Life Insurance company with the United States Mortgage and Trust company was taken up.

WORD ORIGINS.

Some Old Meanings That Are Now More or Less Obsolete.

"Many persons," says a college professor, "elbow their way through the world and yet cannot tell why their own elbows are so named. They forget that the syllable 'ell' was once our name for arm and then for a measure of an arm's length, a sense that is plain still in the proverb, 'Give an inch and he will take an ell.' In the light of this obsolete meaning 'elbow' is clearly armbow, the bend of the arm. 'Finger' is allied to 'fang,' and so means a grasper, and 'hand' has a similar sense because from the same root as 'hound,' the game grasper, and with 'apprehend.' 'Nail,' being from the same root as 'nag,' teaches that nagging is a figurative scratching with the ends of the fingers. 'Wrist' is what wrests or turns the hands and is plainer when we find that 'foot wrist' was an old name for ankle. 'Vertebrae' are also turners, the bones on which the body turns round horizontally, while haunches, literally 'bends,' analogous to 'hinges,' are what it turns upon up and down. 'Instep,' if still spelled as once it was, 'instoop,' would describe itself as the foot's stoop or bend inward to the ankle.

"'Muscle,' which means mouse, takes its name from its shape, and the ends which stretch it are tendons, which is Latin for stretchers. Beginners in Latin are pleased to learn that the uvula, at the root of the tongue, means a grape cluster; that the clavicle, which locks up the chest, means key; that a certain vein is called jugular, meaning pertaining to a yoke, because near the yoke of the right and left ribs. 'Nostril' is nose drill, for it pierces the nose as drills do rocks. 'Artery' etymologically is an air tube and so perhaps was once pronounced airtery. No blood being found in arteries after death, it was natural, since nature abhors a vacuum, to think those empty vessels to be air pipes or ducts for vital spirits which were quite distinct from that in the veins.

"'Muzzle' is not a dignified word for mouth, but it has an origin and relations worth knowing. It means a biter and is cognate with 'morsel' and 'remorse.' 'Muzzle' is a biter, 'morsel' is what is bitten and 'remorse' is an after bite. Instead of transferring from Latin the phrase 'remorse of conscience' Anglo-Saxons translated it the 'again bite of inwit,' the title of an ancient poem dating from the year 1340. 'Jaws' would be a plainer word if spelled now as it was in our Bible of 1611—that is, 'chawes'—'I will put hooks in thy chawes.'"

"Fake" Sailors A-plenty.

"Fake sailors," said a naval officer, "work more harm to the reputation of Jack ashore than the real man-of-war's man is able to overcome by the strictest regulation of his conduct when on land. The navy is popular, and its sailors are popular, and, realizing this, there has sprung up a panhandlers' contingent whose regular business is the impersonation of Uncle Sam's bluejackets.

"Somehow they manage to get possession of castoff naval uniforms. Sometimes, failing that, they go even to the expense of having uniforms made after the naval pattern. Dressed in these, they do a profitable business. Their ship has just sailed without them, and they want money to join her at Newport or they will be court martialed. Some want only enough money to get to the navy yard, where they must report at once. And so on with all sorts of plausible stories. When you see a man in a navy uniform begging, take my word for it he is a panhandler and not a man-of-war's man."—New York Press.

Tomatoes, Possums and Ducks Plentiful—Improvements About Town.

Windsor, Oct. 20.—Mr. and Mrs. Howells have lately returned from the North, and Mrs. Howells, nee Mrs. Munsinger, has taken up her duties again as postmistress at this place

Hon. J. A. Rosborough is making some improvements. Among other things he is contemplating erecting a new building shortly.

T. M. King spent several days in Windsor last week.

We are happy to state that the little daughter of I. I. Wilkinson is rapidly recovering from a very serious illness.

Oscar Green and family have moved into Windsor from Orange Heights, and expect to make this place their home.

Mr. Torode has a patch of very fine tomatoes. We understand those he has sold have netted something like $5 per bushel. This looks like there might be money in tomatoes.

Robt. Wixson and wife of Gainesville, and T. L. Boulware, spent Sunday in Windsor.

The cotton crop in this section of the county has about all been gathered. The cotton looks nice, but with reduced acreage and the loss by shedding incident to the wet weather, there will not be much over half the number of pounds there were last year.

Orange trees have made a fine growth since the rainy season began. There are quite a lot of trees that show a little sprinkle of oranges. If we have an unusually mild winter, there will be a good many boxes grown in Windsor next year.

W. H. Byles and M. J. Beckham each have a nice lot of pecans of very large size and excellent flavor this year. The soil seems admirably adapted to the culture of pecans.

Anyone wishing a nice fat duck for Sunday dinner can procure the same by addressing Mrs. Blarson or Mrs. Mann of this place.

Possums have made themselves very much in evidence here of late, and from the way they are stripping the persimmon trees Windsor neighborhood might be a good place to put in orders for fat possums.

Fannin, October 18.—Red Hollow school is progressing finely under the management of Miss Mabel Hall.

Miss Iva Trammell is visiting relatives here this week.

The young people of this section enjoyed an ice cream social at the home of Mr. and Mrs. O. G. Barber last Wednesday evening.

F. K. Trammell has been very ill with malarial fever.

D. T. Trammell and daughter, Miss Bamma, visited Alachua today.

S. B. Hardee is very ill with malarial fever.

The angel of death visited the home of Mr. and Mrs. N. J. Trammell on the 14th inst., and took from them their sweet little boy, Robbie, aged three years. "Suffer the little children to come unto me and forbid them not, for of such is the kingdom of heaven."

Death at Newberry.

Newberry, October 20.—Our community was shocked Wednesday at the death of Gladys, the sweet fifteen-months' old daughter of Mr. and Mrs. Lute Howell, which occurred after an illness of only a few days.

Gladys was a sweet child, possessed of a most affectionate and friendly disposition, and a general favorite with all who knew her.

The remains were taken to Lake Park, Ga., Thursday, where the interment was held. The corpse was accompanied by the bereaved parents and Dr. and Mrs E. B. Howell.

The sympathy of the community is extended in this sad hour of bereavement. PEARL BAILEY.

A FACT PROVEN.

Should Convince Even the Most Skeptical of Its Truth.

If there is the slightest doubt in the minds of any that Dandruff germs do not exist, their belief is compelled by the fact that a rabbit innoculated with the germs became bald in six weeks' time.

It must be apparent to any person therefore that the only prevention of baldness is the destruction of the germ—which act is successfully accomplished in one hundred per cent of cases by the application of Newbro's Herpicide.

Dandruff is caused by the same germ which causes baldness and can be prevented with the same remedy—Newbro's Herpicide.

BOZEMAN--MOODY.

Two Prominent Young People Join Hearts and Hands

Mr. W. T. Bozeman of Savannah, Ga., and Miss Mary Moody of Cadillac were united in the holy bonds of wedlock Sunday afternoon, at 5 o'clock, at the home of the bride's parents, Mr. and Mrs. D. A. Moody.

The ceremony was performed by Rev. Mason, pastor of the Methodist church at Alachua, in a very solemn and impressive manner.

The wedding was a very quiet one, only the relatives and a few friends of the contracting parties being present.

Miss Moody is a young lady of charming disposition and loved by all who know her. Mr. Bozeman is a valued employe of the Atlantic Coast Line at Savannah.

Mr. and Mrs. Bozeman will reside in Savannah.

Negro Escaped Lynching.

Alexandra, La., Oct. 20.—William Waddy, a negro 22 years of age, is in jail here charged with entering the room of Mrs. Henry Bickenburg, of Loyd, Rapides parish, La., with criminal intent, several weeks ago. Tuesday night a mob took him from the jail at LeCompte La., and had placed a rope around his neck ready to swing him to a tree when the negro got his hands loose threw off the noose and made his escape. He was re-arrested yesterday by the authorities and is now in the parish jail. The negro claims that he is innocent.

Zero Weather in Montana.

Louisville, Oct. 20.—The weather bureau in its report of conditions this morning says that rain has been falling generally over the central valleys and southwest, the rainfall being excessive in parts of Arkansas, Tennessee and Kentucky, where measurements from 1½ to 3.59 inches during the past 24 hours are reported. Six degrees below zero is reported this morning from Montana.

Cattle Brings Fancy Prices.

New Orleans, Oct. 20—A cable dispatch to the Herald from Buenos Ayres, Argentine, says: Some Durham cattle stock, imported from the United States, were sold Tuesday. The best prices were for bull Hamptons, from Maryville, Mo., which brought $3,000. Village Lad, from Manila, brought $2,300. Hampton's Pearl, from Maryville, brought $3,700.

Attaches Bid Mikado Farewell.

Tokio, Oct. 19.—12:30 p. m.—Thirty three foreign military attaches who were with the Manchurian army, were received in farewell order by the emperor today and were afterwards the guests at a luncheon. Among them were General Juernett, of the British army, and General MacArthur, of the American army.

Fourteen Bales on Four Acres.

Gainesville, Ga., Oct. 20—E. R. Barrett, representative of the Davidson & Pruitt Hardware company on the road in this section, tells of some cotton he saw in Milton county. He says that upon four acres on John B. Brodwell's farm he will raise 14 bales of cotton. Already he has ginned ten bales, has three more picked, and that there is enough in the field to make another bale.

Indicted for Forgery.

Muskogee, I. T., Oct. 20.—C. M. Bradley, of this city, a banker and real estate dealer, was indicted by the federal grand jury today charged with forgery and conspiracy growing out of a land deal.

Doctors Said He Would Not Live.

Peter Fry, Woodruff, Pa., writes: "After doctoring for two years with the best physicians in Waynesburg, and still getting worse, the doctors advised me if I had any business to attend to I had better attend to it at once, as I could not possibly live another month as there was no cure for me. Foley's Kidney Cure was recommended to me by a friend, and I immediately sent my son to the store for it, and after taking three bottles I began to get better, and continued to improve until I was entirely well." J. W. McCollum & Co.

A Troubled One.

It is said that the expression "There is a skeleton in every closet" arose from the following incident: A young Italian student, finding he was dying, fearing to break the news to his mother, adopted the following device: He informed her that he was ill and that it had been foretold he would not recover until he had worn a shirt made by a woman who had no trouble. The widow soon discovered it was no easy task to find such a person, but at length was referred to a lady who seemed surrounded with every comfort and happiness and possessed a husband who seemed devoted to her. The widow made known her request and for an answer was shown a closet where a skeleton hung suspended from a beam. She was told it was the remains of the lady's former lover, who from motives of jealousy had been slain by her husband, and that he compelled her to visit it every day. The widow concluded that no one was without trouble, that "there is a skeleton in every closet," and became reconciled to the approaching loss of her son.

Washington's Birthday.

The first known celebration of Washington's birthday was on Feb. 11, 1784. The old style date was still adhered to. This was during the lifetime of the first president and completed his fifty-third year. The following is from the Pennsylvania Packet of Philadelphia of the date of Tuesday, Feb. 17, 1784: "New York, Friday, Feb. 13.—Wednesday last being the birthday of his excellency General Washington the same was celebrated by all the true friends of American independence and constitutional liberty with that hilarity and manly decorum ever attendant on the sons of freedom. In the evening an entertainment was given on board the East India ship in this harbor to a very brilliant and respectable company, and a discharge of thirteen cannon was fired on the joyful occasion." The observance of the day was not confined to New York city.

Newton's Telescope.

Newton fashioned a concave mirror from a mixture of copper and tin, which gives a surface with almost the luster of silver. An image of the star was produced in the focus of this mirror, and then this image when examined by a magnifying eyepiece permits the astronomer to study the star at what is equivalent to a greatly reduced distance. Such is the principle of the famous erecting telescope which bears the name of Newton. The little reflector which he constructed is still preserved as one of the treasures of the Royal society. The telescope tube had the very modest dimensions of an inch in diameter. It was, however, the precursor of a whole series of magnificent instruments, each outstripping the other in magnitude.

A Soft Answer.

Here is a story about Sir Patrick Talbot, sergeant at arms in the house of lords. He had been private secretary to the great Lord Derby when prime minister and afterward married one of his daughters. One day when a large party was present at Knowsley Lord Derby burst out at table with the remark, "It's a curious thing one never knows what a lot of fools there are in England until one becomes prime minister." Thereupon Talbot, at the other end of the table, said, "Yes, and one never knows what a fool a prime minister may be until one becomes his private secretary." Lord Derby's reply was, "Thank you, Pat."—Dundee Advertiser.

The Rudest Man of His Age.

John Hunter, the famous British surgeon, anatomist, physiologist and medical writer, who died in 1793, was one of the rudest men of his age. He returned home late one evening from his round of professional calls and found his wife entertaining a few friends. Grimly he walked into the center of the room, stopped and looked around. "I knew nothing of this kick up," he said, "and ought to have been informed. As I have returned home for the purpose of studying, I hope the present company will retire at once." They retired.

Graphic.

The end of a novel, compressed by the editor owing to lack of space: "Ottokar took a small brandy, then his hat, his departure, besides no notice of his pursuers, meantime a revolver out of his pocket, and, lastly, his own life."—Deutsche Leschalle.

SUNSTROKES.

An old negro was passing along the street a few days ago, driving an old mule which looked as though he never had the opportunity to take any chances of finding rice hulls in fodder. Two well kept dogs were following the poor old mule, and a fellow asked the darkey if he did not want to sell a dog, when he replied: "Dese is de only two I got—couldn't let one go very well, nohow." The mule could just go.

The State Board of Educational Control seems to be taking a considerable amount of responsibility on themselves in removing the apparatus from the Bartow school and storing it in this city without the consent of Mr. Appleyard. The effrontery of these gentlemen is amazing.

Many people who come to Florida claim that the pedestrian fad is the best recreation that they can indulge in. The delightful atmosphere in Florida in winter is the best suited to pedestrianism of any to be found in any part of the United States.

The game of croquet will soon take the lead over tennis as a pastime at social functions where those who desire outdoor recreation are not quite athletes enough to indulge in golf or tennis.

The firms that are selling the cereal food drinks are talking much about the "coffee heart." There are several coffee hearts in this city and they also beat as one.

The signing of the peace treaty by the Czar does not affect the people of Russia. The movement toward Siberia is just as active as ever.

The schools of Gainesville are receiving new pupils every day, and the people who send their children here for an education will never regret it. The faculty is composed of educators in every sense of the word, with abundant experience to understand thoroughly the needs of the young people seeking an education. We have no hesitation in recommending the University High School of this city as the peer of any in Florida.

Don't think that advertising is of no avail. A small ad. was inserted in The Sun Friday morning and before 9 o'clock there were two answers received from persons who saw it and came at once to look up the proposition. It pays.

If you go ten miles south of Gainesville in Alachua county, you will find as handsome a farming section as there is in Florida. Don't let others tell you that they can beat this county.

Get the home-seekers to coming this way. We have plenty of good land in Alachua county that don't need any ship canal to drain. Nature has made the necessary provision.

King Alfonso of Spain wants to have a big time before he gets married, then he says he will stop all foolishness. Of course that depends on the better-half, somewhat.

We are highly pleased to note the improvement in the yellow fever situation at Pensacola.

WEEKLY CROP REPORT.

The weekly crop bulletin, issued by Section Director A. J. Mitchel of the Weather Bureau at Jacksonville, for the week ending October 16, is as follows:

"The week gave showers to locally heavy rains over all districts. The least amounts occurred on the northeast coast, and the greatest amounts over western counties, where precipitation was sufficiently heavy to wash cotton from the bolls, and otherwise damage the lint. By far the greater part of the crop has been gathered and ginned. Many fields have had stock turned in on them. Where labor has been scarce and unsatisfactory some picking is yet to be done. There being very little top cotton picking will be generally completed by the close of the month. The crop will not exceed two-thirds of an average one. The potato and cane crops are promising. Much hay has been saved. Work on low-lands has been delayed by frequent rains, and in some instances fall and winter vegetables will be delayed. Some replanting is now going on. Citrus trees and pineapple slips are doing well. Citrus fruits are coloring nicely and shipments are increasing. The fruit, as yet, does not possess its usual flavor."

HEAVY HOGS.

A few years ago there was a demand for heavy lard hogs. Now the tendency is towards smooth, even hogs of medium weight of from 225 to 350 pounds of early maturity. Hogs of this weight should be free of surplus fat, possess smooth shoulders, well laid in with the line of the body, hams moderately heavy, a firm flesh with flanks well down so as to furnish a large development of belly meat. The back should be of good length, width and smooth, showing an absence of large patches of fat above the hams. The best cuts of the hog are taken from the back, loin and sides, hence the importance of good length and sides are desirable. The careful breeder of pure-bred swine keeps informed on just such points and aims to produce the market demand. The scrub hog has no place on the farm and since the packer and his trade have called for a certain type of hog, it stands the hog raiser well in hand to meet the demand through careful breeding and feeding. Medium weight hogs, through the demands of trade, have disposed of the old time 500 or 600 pound lard hog.—The Stockman.

A FOOL NOTION.

The homeopathist doctors are trying to get a law passed in the State of New York, making it necessary for people to obtain certificates of health before they can get married, when marriage is the only remedy to relieve some people we know, and after marriage their sickness does not leave them until one or the other strikes something more fascinating.

Still there are plenty of rubber-headed people who think everything should be married. There is no reason in such talk, as some men are not fit to even live in the same town with a sweet woman, let alone marrying one.

Many people who are married, said an old bachelor, are not content to suffer alone, therefore would like to see others in the same boat. The subject will never be settled so long as America is free.

The medical examining committee in the case of David Mitchell, the Bradford county negro sentenced to hang, who had the sentence commuted to life imprisonment, has stated that he does not possess the average intelligence of the common negro. Still he has the cunning of a bad negro, and is a dangerous man to have even under guard in a turpentine camp.

Owing to the constantly increasing demand for space in the exposition buildings of the State Fair, to be held in Tampa, November 15th to 30th, the erection of several imposing buildings not at first contemplated has been necessary. All buildings and fences will be painted white and will present a magnificent appearance. The matter of selecting judges for the various departments is now being given serious attention by the directors. Poultry breeders throughout the State will be pleased to learn that F. J. Marshall of College Park, Ga., one of the most experienced judges in the country, will act as judge of the poultry department of the Fair.

Many farmers in this section are digging some very fine sweet potatoes, as well flavored and mealy as those grown in either Virginia or New Jersey, where the famous "Jersey Sweets" have such a reputation. The samples of sweet potatoes we have seen this fall are proof that Florida can produce a fine grade of potato and the yield in many places is large enough to make them more profitable than the Irish potato.

The home-seekers' excursions are beginning to bring large crowds of people to this State. The people of Alachua should have their hands out of their pockets ready to greet all who may come this way.

The Palmetto News claims it is using the "biggest 'tater in the State" as a paper weight. It is a Key West yam and tips the beam at 12½ lbs. The potato was raised on J. S. Brand's Terra Cel farm.

The cotton mills at Augusta, Ga., are planning to have the spinners share the profits in the mills. If this works satisfactory it will be a great solution of the strike question.

If President Roosevelt can do the negroes of Jacksonville any good by talking to them, let them have an hour.

No Benefit No Cost.

If you are weak and worn-out—if you are nervous, irritable, have headache, backache, neuralgia, or periodical pains, it is because you have exhausted your nerve force.

If you cannot sleep, and are thus robbed of the rest which nature demands for the restoration of mental and physical vigor, your system will continue to run down.

Dr. Miles' Nervine restores vitality by soothing and strengthening the nervous system, thus inducing refreshing sleep, and imparting strength and vigor to all the organs of the body.

There are very few instances where Nervine will not benefit; if not, your druggist will refund the money.

"When I began taking Dr. Miles' Nervine I had a very sour stomach, with pain extending far around on my left side—attended with extreme nervousness. I dreaded to have night come, as it was impossible for me to sleep. Everything I ate distressed me. Before I had finished one bottle of Nervine there was such a change that my husband bought six more, which has restored me to health."
MRS. JENNIE SIMMS, Rushville, Ind.

Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

This was a bill introduced by Councilman Ross, as a result of the charges made against Superintendent Drysdale of the street cleaning department.

The Tampa Automobile and Good Roads Club will attend the Bloomingdale camp-meeting in a body Sunday, Oct. 29. All of which goes to show that Solomon was wrong when he said "there is nothing new under the sun," and the contrast between one of the purest forms of religious services and one of the most modern methods of rapid transit, is striking in the extreme.—Tampa Tribune.

Saved His Life.

J. W. Davenport, Wingo, Ky., writes, June 14, 1902: "I want to tell you I owe Ballard's Snow Liniment saved my life. I was under the treatment of three doctors, and they told me one of my lungs was entirely gone, and the other badly affected. I also had a lump on my side. I don't think that I could have lived over two months longer. I was induced by a friend to try Ballard's Snow Liniment. The first application gave me great relief; two fifty cent bottles cured me sound and well. It is a wonderful medicine and I recommend it to suffering humanity." Sold by W. M. Johnson.

Charged with Blackmail.

Dublin, Ga., Oct. 20.—C. McHunn and wife were carried from Dublin to Perry to answer to the charge of blackmail. They are said to have blackmailed a young lawyer of Perry out of his watch and chain and a check for $1,000. Payment on the check was refused at the bank. McHunn claims to be an osteopathic doctor, but has been selling maps in Dublin. He claims that his offices are on Poplar street in Macon. As far as known he and his wife did not try any blackmailing scheme while in Dublin. Their personal effects are in the hands of the officers for an unpaid board bill at a local lodging house for $32. McHunn is said to be a native of Powersville, Ga., and is well connected.

Accidentaly Kills Self.

Atlanta, Oct. 20.—As the result of the accidental discharge of a gun early Thursday, Thomas Richard Rustin, 17 years old, of Lakewood Heights, died almost instantly. Young Rustin was shot in the presence of his mother and father, and the rest of the family. A load of No. 7 shot from the double-barreled gun struck him behind the right ear, blowing out his brains. Despite the efforts of Dr. Monroe Smith, he died at 9 o'clock, two hours and a half after he was shot. Rustin was assistant cashier for the Davison-Paxon Dry Goods Co., and was well thought of by the firm. Surviving him are his mother, his father, J. T. Rustin, and four younger brothers.

Alabaman Charged with Bigamy.

Huntsville, Ala., Oct. 20.—C. W. Kirby, a salesman employed by a furniture house in this city, has been arrested on a charge of bigamy, preferred by a woman from Jackson county, who claims to be his first wife. The woman from Jackson claims that Kirby married her several years ago, and went to Tennessee, where he married against without obtaining a divorce from her. She recently moved from Jackson county to this city with her children to seek employment. She had heard nothing of her absent husband until she met and recognized him on the street in Huntsville.

Francis is Found Guilty.

Philadelphia, Oct. 20.—Stanley Francis, who has been on trial in the United States district court since October 1, charged with using the mails to defraud in connection with the defunct Storey Cotton company, was today found guilty on every count in the indictment. Francis, who was known under several aliases, was charged by the government with being a principal in the Storey Cotton company, which, when closed by the postal authorities, owed $2,926,578 to "customers" throughout the country. Application was made for a new trial.

New Cure for Cancer.

All surface cancers are now known to be curable by Bucklen's Arnica Salve. Jas. Walters of Duffield, Va., writes: "I had a cancer on my lip for years that seemed incurable, till Bucklen's Arnica Salve healed it and now it is perfectly well." Guaranteed cure for cuts and burns. 25c at all drug stores.

Died at 100 Years of Age.

Detroit, Mich., Oct. 20.—Ehlert W. Strelow, a resident of this city since 1869, died yesterday aged 100 years and two months. His sight was so good and his nerves so steady that he was able to shave himself until after his hundredth birthday. He was the father of nine children, five of whom are living.

Simpson's Condition Improved.

Wichita, Kan., Oct. 20.—The condition of ex-Congressman Jerry Simpson was improved early today, the patient having slept the greater part of the night. The attending physician, however, held out no hope and says that death is liable to occur at any time.

If the Baby is Cutting Teeth

Be sure and use that old and well-tried remedy, Mrs. Winslow's Soothing Syrup, for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

Negro Kills Motorman.

Birmingham, Ala., Oct. 20.—No greater indignation has ever been felt in Birmingham for murder than that said to have been done by a negro which cost the life of Berry Pessner, a motorman, at the hands of R. L. Nix, a desperate negro, on Tuesday night. The negro, some time ago, drew a knife and cut L. Tennerson, a merchant, during a quarrel over a petty transaction in the latter's store. The motorman had been enduring the cursing of a gang of negro men on the front platform of a Gate City car, until he could stand it no longer and informed the negroes that they must desist or leave the car. This infuriated Nix, who drew a knife and saying "Damn you, put me off," stabbed Pessner in the breast and neck. Pessner died the next morning. The negro ran, but was captured a few blocks from the scene of the crime. When he was taken to the county jail a great crowd followed and would have done violence if permitted.

Merger is Endorsed.

Cincinnati, Oct. 20.—The members of the administrative council of the National Metal Trades association have indorsed every detail of the merger of their organization with the National Founders' association, and last adjourned after empowering the committee, which has had charge of the preliminary details, to bring the merger to an actuality. The new body will retain the name of the national metal trades association. The present officers are President J. W. Gardner, of Quincy, Ill.; First Vice President Fred A. Gier, of Cincinnati; Second Vice President W. D. Salle, of Cleveland, O. and Treasurer W. E. Copeland, of Chicago.

Praise for Health Officers.

Montgomery, Ala. Oct. 20.—There is the most unanimous commendation for the way the Alabama health officers have handled the quarantine situation, keeping all but the one lone case in Montgomery and the two cases at Castleberry out of the state. This, too, in the face of the fact that much of the line of Florida, Louisiana and Mississippi was infected at one time or another. The governor and all the state officers have the greatest praise for Dr. W. H. Sanders and his able assistant, Walter Brassell, and all the efficient men under them.

Mothers

Who would keep their children in good health should watch for the first symptoms of worms, and remove them with White's Cream Vermifuge. It is the children's best tonic. It gets digestion at work so that their food does them good, and they grow up healthy and strong. Sold by W. M. Johnson.

A JUDGE'S WIFE CURED OF PELVIC CATARRH

MRS. MINNIE E. McALLISTER.

She Suffered For Years and Doctors Failed to Give Relief —Cured by Pe-ru-na.

MRS. MINNIE E. McALLISTER, wife of Judge McAllister of Minneapolis, Minn., and Chaplain Loyal Mystic Legion of America, writes:

"I suffered for years with a pain in the small of my back and right side. It interfered often with my domestic and social duties and I never supposed that I would be cured, as the doctor's medicine did not seem to help me any.

"Fortunately a member of our Order advised me to try Peruna and gave it such high praise that I decided to try it. Although I started in with little faith, I felt so much better in a week that I felt encouraged.

"I took it faithfully for seven weeks and am happy indeed to be able to say that I am entirely cured. Words fail to express my gratitude. Perfect health once more is the best thing I could wish for, and thanks to Peruna I enjoy that now."—Minnie E. McAllister.

Mrs. Esther M. Milner, DeGraff, Ohio, writes:

"I was a terrible sufferer from female weakness and had the headache continuously. I was not able to do my housework for myself and husband. I wrote you and described my condition as near as possible. You recommended Peruna. I took four bottles and was completely cured. I think Peruna a wonderful medicine."—Mrs. Esther M. Milner.

Congressman Thad. M. Mahon, of Chambersburg, Pa., writes:

"I take pleasure in commending your Peruna as a substantial tonic and a good catarrh remedy."—T. M. Mahon.

Light on Female Diseases.

What used to be called female diseases by the medical profession is now called pelvic catarrh. It has been found by experience that catarrhal diseases of the pelvic organs are the cause of most cases of female diseases.

Dr. Hartman was among the first of America's greatest physicians to make this discovery. For forty years he has been treating diseases peculiar to women and long ago he reached the conclusion that a woman entirely free from catarrhal affection of these organs would not be subject to female diseases. He, therefore, began using Peruna for these cases and found it so admirably adapted to their permanent cure that Peruna has now become the most famous remedy for female diseases ever known. Everywhere the women are using it and praising it. Peruna is not a palliative simply; it cures by removing the cause of female diseases.

Peruna builds up the nerves and restores the appetite and digestion.

Dr. Hartman has probably cured more women of female ailments than any other living physician. He makes these cures simply by using and recommending Peruna.

Pe-ru-na Contains No Narcotics.

One reason why Peruna has found permanent use in so many homes is that it contains no narcotics of any kind. Peruna is perfectly harmless. It can be used any length of time without acquiring a drug habit. Peruna does not produce temporary results. It is permanent in its effect.

As a tonic and nerve invigorator Peruna has no equal.

It has no bad effect upon the system, and gradually eliminates catarrh by removing the cause of catarrh. There are a multitude of homes where Peruna has been used off and on for twenty years. Such a thing could not be possible if Peruna contained any drugs of a narcotic nature.

CARTS IN SCOTLAND.

They Were a Cause of Wonder In the Eighteenth Century.

In Scotland at the beginning of the eighteenth century produce was carried in sacks on horseback or on sledges, or—later in the century—on tumbrels, which were sledges on "tumbling" wheels of solid wood with wooden axletrees, all revolving together. These machines were often so small that in a narrow passage the carter could lift them bodily, for they held little more than a wheelbarrow. They had wheels a foot and a half in diameter, made of three pieces of wood pinned together like a butter firkin and which quickly wore out and became utterly shapeless, so that a load of 600 pounds was enormous for the dwarfish animals to drag. Yet even such vehicles were triumphs of civilization when they came into use when the century was young.

Carts are a later invention still, and when one, in 1723, first carried its tiny load of coals from East Kilbride to Cambuslang, "crowds of people," it is reported, "went to see the wonderful machine. They looked with surprise and returned with astonishment." In many parts of the lowlands they were not in ordinary use, even till 1760, while in the northern districts sledges or creels on the backs of women were chiefly employed to the end of the century. The wretched condition of the roads was the chief cause of the reluctant adoption of carts.

In the driest weather the roads were unfit for carriages and in wet weather almost impassable, even for horses—deep in ruts of mire, covered with stones, winding up heights and down hills to avoid swamps and bogs. It was this precarious state of the roads which obliged judges to ride on circuit, and a practice began as a physical necessity was retained as a dignified habit, so that in 1744 Lord Dun resigned his judgeship because he was no longer able to "ride on circuit."—Scottish Review.

LIFE IN ANCIENT GREECE.

No Remains Whatever of Grecian Domestic Architecture.

Of the domestic architecture of the Greeks nothing whatever remains, writes Jean Schoepfer in the Architectural Record Magazine. In ancient Greece private houses never had any architectural interest. A citizen of Athens or Sparta was too busy with state affairs to spend much time at home. He wanted to be in the public place where he could find his friends and fellow citizens. Moreover, the climate allowed him to live in the open air during the greater part of the year. It was on the agora that the citizens assembled in public meeting. It was there, from a rostrum, that the orators harangued the crowd; hence the need of a good voice and a clear enunciation; hence, too, the famous pebbles of Demosthenes. It was in the open air that Socrates and the sophists held their discussions alongside the Ilyssus, under the plane trees or on a public place. It was in the academy gardens that Plato patronized and in open air gymnasiums that the youths practiced their athletic games. There was no raison d'etre for a domestic architecture with such a people and in such a climate. It is not necessary to have palatial administrative buildings for governing a people that live in the public places. Besides, what significance would the term comfort, which is so full of meaning to us twentieth century westerns, living in cold, damp climates where fog, wind and rain prevail during half the year—what sense, we ask, would this word have for the robust Greeks of the fifth century B. C., whose children Aristophanes pictures to us on their way to school bareheaded, in spite of the falling snow, and singing as they go?

Took the Last Chance.

An old Scotch gravedigger was remonstrated with one day at a funeral for making a serious overcharge for digging a grave.

"Well, ye see, sir," said the old man, in explanation, making a motion with his thumb toward the grave, "him and me had a bit o' a tift twa or three years syne owre a braw watch I selt him, an' I've never been able to get the money out o' him yet. 'Now,' says I to myself, 'this is my last chance, and I'd better tak' it.'"

Was It St. Mark or Lazarus?

As Jesus was being led captive from the garden back of Jerusalem one form followed the guard. It was white in the moonlight and looked like an apparition. When the guard noticed the figure they sought to lay hands upon it, when the figure cast off the cloth around its form and escaped. St. Mark is the only historian who mentions this, and some writers think St. Mark was the figure. Others think it was Lazarus.

Rushing the Business.

The following story is told of a one time Pennsylvania legislature:

The session was about to expire. In accordance with the usual custom, the chair was occupied by a rapid worker, who was deaf to objections and blind to objectors. His name was Alexander McClure. Under his able management the bills were going through at a lightning express rate when one measure was reached that was particularly obnoxious to a noisy minority. Utterly oblivious to the demonstration, Mr. McClure declared that the bill had passed. Over in one corner of the legislative chamber one member was especially vociferous. He would not be quieted, and Mr. McClure was finally compelled to notice him for the sake of peace.

"For what purpose does the gentleman rise?" asked the chair.

"I want to offer an amendment to the bill," was the reply.

"Too late," said Mr. McClure, without a smile. "Offer it to the next bill. The clerk will read."

Candlelight.

In domestic lighting for nearly the first half of the last century candles held undisputed sway. The bell is rung, and Mary brings in candles, a pair of molds in tall brass candlesticks brightly polished, with snuffers on a tray—a sharp beaked snuffers of steel, with jaws that opened and shut with a snap and something sinister in their appearance.

There were plated candlesticks and snuffers, too, for occasions of state, with silver branches that suggested the spoils of Jerusalem, but there was also a lamp, a stately edifice of bronze that towered over the family circle at times and shed a generous and genial light when so inclined. But what a demon it was to smoke and to smell! And it would burn, when it condescended to burn at all, nothing but the very finest sperm oil at a fabulous price per gallon.—London Chronicle.

The Capital.

It is not generally known, says the Philadelphia Record, but it is a fact of history nevertheless that Bristol township, lying on the east side of Germantown, had a very narrow escape from being selected as the site of the capital of the United States. It was a very small matter that turned the choice toward Maryland and Virginia. So positive were some members of congress that the capital was going to be located near Germantown that they purchased real estate there, not, of course, as a matter of speculation, but simply to be near at hand when the removal from Philadelphia to Bristol took place. When the vote of the commissioners was taken there was a tie, four being for Bristol and four for the District of Columbia. Washington cast the deciding vote and Bristol township was left out in the cold.

Astonishing Incident.

It was, to all her friends, an astonishing incident that Mrs. I. B. Hunt of Lime Ridge, Wis., was cured of her dreadful sickness. "Doctors," she writes, "had given me up; friends were ready to bid me the last farewell; clouds of despair darkened my horizon, and I was a wreck on the shores of despondency, when I began to take Electric Bitters for my frightful stomach and liver complaint. To the astonishment of all, I was benefited at once and am now completely and miraculously restored to health. At all drug stores; price 50c; guaranteed.

Swiss English.

The Swiss have not a perfect grasp of English grammar. Recently the following advertisement appeared in an "English" guidebook published at Berne: "The —— hotel is a very favorite resort of people fond of solitude and rest. Those who are in search of loneliness are in veritable fact constantly flocking to the —— hotel from the fore quarters of this globe." "Strange gentlemen will to please not to dress for dinner, etc., as this costume flutters the souls of the maid folk and no work is resulted. Humbly asked." Such is the announcement posted in the bedrooms of an inn in the Jura mountains.

"Nosey" Cromwell.

Oliver Cromwell had a head large in proportion to his body. His features were rugged and unprepossessing. He had three or four warts on his face, one being on the side of his nose. He wore a small mustache and imperial, after the fashion of the times. His complexion was bronzed by exposure to the sun, and he had a fiery red nose of generous proportions that gave rise to many nicknames, "The Almighty-Nose," "Nosey," "The Copper Nosed Saint," "His Noseship" and "Rosy Nose" being among the least complimentary.

A Good Book Keeper.

W. P. James writes: "Book borrowers are incorrigible, and book collectors must understand that for themselves churlishness is an essential virtue. I recall a good story told by Ashly Sterry of a book collector who solemnly warned him against ever lending a book and who to enforce his moral led him to a well stocked bookshelf in his own house, saying: 'Look at those shelves. Every book on them was lent to me.'"

Swallows' Nests.

Swallows and house martins build by sticking together pellets of prepared road mud. Most of the material is obtained from the drying puddles on the highroads. If not mixed with anything else the tendency of these pellets would be to crumble when dry. But the swallow tribe is supplied with a mucous secretion which enables it to gum the particles together.

A Gentleman.

There is no such thing as being a gentleman at important moments. It is at unimportant moments that a man is a gentleman. At important moments he ought to be something better.—G. K. Chesterton.

The Able Lawyer.

"They say he's an authority on constitutional law."

"I think he's an authority on unconstitutional law. According to him, there's very little of any other kind."

Capable and Alarming.

Percy—I'm afraid of Miss Isabel. Guy—Why? Percy—Oh, she looks at me as if she could make me propose if I were left alone with her.—Life.

Cures Winter Cough.

J. E. Gover, 101 North Main street, Ottawa, Kan., writes: "Every fall it has been my wife's trouble to catch a severe cold, and therefore to cough all winter long. Last fall I got her a bottle of Horehound Syrup. She used it and has been able to sleep soundly all night long. Whenever the cough troubles her, two or three doses stop the cough, and she is able to be up and well." 25c, 50c and $1. Sold by W. M. Johnson.

EARLY CALIFORNIA SHIPS.

How Commerce Grew In Pioneer Days of the Golden State.

The first European vessel to enter the port of San Francisco of which there is any record was the Eagle, in 1816, commanded by Captain William D. Davis. She sailed from Boston via the Sandwich Islands and Alaska. She carried an assortment of goods which were a revelation to the natives, and their garments of skins and hides were substituted by the clothing of civilization. Payments were made in hides, tallow, soap and fish. The Eagle then became engaged in the sea otter trade and was very successful, as otters were plentiful in San Francisco bay and all along the coast. She made three trips, netting about $25,000 on each trip. This stimulated others, and this discovery no doubt gave an impetus to commerce which made this port known to the world.

Commerce in those days of manna was carried on in what might be termed a "free and easy" manner. On many articles the duty was 100 per cent, which practically amounted to confiscation or made smuggling necessary in self defense. The Mexican officials generally opened the door. Frequently vessels were permitted to pass Monterey, the port of entry, going to Yerba Buena and, after selling as much of the cargo as possible, to return to Monterey for entry and dispose of the remainder.

The shippers were not sworn as to the value of the cargo. They gave fictitious invoices and by this means would get off on the payment of $5,000 on a $20,000 cargo.

It became so customary to swindle the government as scarcely to excite comment, except in cases where goods were concealed in false linings of the vessels and the government officials were outwitted.

URIC ACID IN THE SYSTEM.

A Medical Opinion on This Foe to Health and Life.

Haig holds that the man of average weight elaborates twelve grains of uric acid in twenty-four hours, and woe betide him if he does not excrete the full amount with due celerity. A little retained uric acid will give rise to headache, lethargy and mental depression. A greater retention will give rise to arthritis, lumbago and sciatica. The uric acid miser will end his days through bronchitis, Bright's disease, apoplexy, diabetes or cancer. Man cannot avoid his fate and cease being a uric acid producer. He can avoid, to some degree, swallowing the wretched stuff. What he cannot avoid swallowing he can, with care, excrete. If man had been wise and had continued to live where he belongs, near the equator, and had fed on fruit and nuts he might have been well. But, having wandered from the tropics, he must be wise or perish. Here are the rules that one must follow to be healthy and live long: First, swallow no uric acid and pass out each day regularly and punctually all that is formed in the body. Second, excretion of uric acid may be obtained by clothing warmly, by avoiding exposure to cold in every way (the morning cold tub is an especial abomination), by eating freely of potatoes (especially in cold weather) and by avoiding fruits. Bicarbonate of sodium, night and morning, for people who live in a climate similar to London's is a fine habit. In addition to all this, it "is also advisable to secure the proper distribution of time between bodily and mental exertion and to dispense with dependence on tonics, stimulants and bracing climates."—New York Medical Journal.

Water Thieves.

Water thieves are not unique. Their prototypes existed at least as long ago as 1479. At that time a Londoner wrote: "This yere a wax chandler in Flete strete had bi craft perced a pipe of the condit withinne the grounde, and so conveied the water into his selar; wherefor he was jugid to ride thrugh the Citee with a condit upon his hedde." There were other difficulties too. A century later (1574) it is recorded that owing to a sudden shower of rain the water in the Dowgate channel "had such a swift course that a lad, minding to have leapt over it, was taken by the feet and borne down with the violence of that narrow stream till he came against a cart wheel that stood in the water gate, before which time he was drowned and stark dead."

The Sun's Corona.

Thus far we know the corona of the sun to be a sort of outer envelope, so shielding us from the intense solar light and heat that it may be said without exaggerating that the sun has never really been studied comprehensively. Within the corona is an ocean of gas 5,000 miles deep, stained a ruby red by the crimson blaze of hydrogen. Flashes of flame leap from this ruddy ocean often to a height of a hundred thousand miles and more.

On His Last Legs.

"Do you buy rags and bones?"

"Yes, certainly."

"Then put me in the scales, will you, Pragnell."

An Artist's Mistake.

Danton, the celebrated caricaturist, had a wonderful power of modeling from memory. After one long look at his subject he could go to his studio and make a bust quite perfect in its resemblance.

One day a young man came to him, saying that his sister was ill and about to die and that, although the family wished her bust modeled, they dared not excite her by mentioning it. Would he undertake to reproduce her features after seeing her once? Danton agreed, and next day the brother informed his sister that he intended to present her with some jewels and that a young man would bring some specimens for her approval.

Danton brought in the jewels and, going home, modeled a bust of striking resemblance. Next year an old gentleman, the father of the young woman, came to order a bust of the brother, who also had died. This, too, was a marvelous success.

The result of such planning, however, was not always as satisfactory to his patrons as in these cases. A gentleman who could not persuade his wife to sit asked Danton to enter a certain omnibus one day and fix in his memory the features of the lady opposite him.

He did so, modeled a beautiful bust and sent it home. It proved, however, to be not the mistress, but the maid, who had also taken the trip in the omnibus.

Strength of Insects and Animals.

A series of experiments made to test the jaw force and pulling and lifting strength of various kinds of insects gives some curious points for study. It has been found that a cockchafer can draw fourteen times his own weight and the common honeybee thirty times. From this it may be argued that, weight for weight, each of the above named insects is twenty-one and thirty times respectively stronger than the horse, whose strength, as a rule, is taxed to its utmost in drawing its own weight as a "dead load." A scientist once experimented with a small hard shelled beetle by putting him under a common table tumbler. The little creature, not more than one-third of an inch in length, was able to move the glass in any direction. After the experiment had been satisfactorily made both the tumbler and the bug were weighed, whereupon it was found that the little Hercules had lifted 960 times its own weight! He did not carry the weight, of course, but caused it to make some lively motions.

Fly Wheel Insurance.

Fly wheel insurance is almost pure mathematics. When a wheel is revolved at a high enough speed the centrifugal force exceeds the centripetal and the wheel flies apart. Solid cast iron explodes when the speed at the rim is roughly three miles a minute. A thick rim explodes just as easily as a thin one of the same material. Wood explodes at a greater speed, jointed iron at a less. The underwriter allows a rim speed of a mile a minute, one-third the explosion rate, as a safe limit for solid iron wheels. This permits a two foot pulley wheel sixteen revolutions a second, while it keeps a sixteen foot fly wheel down to two. A jointed wheel is allowed still less. The underwriter has only to name the number of revolutions he authorizes and to proportion his premium to the size of the wheel. The larger the wheel, of course, the more destructive its explosion.—Leslie's Magazine.

A Meerschaum Mine.

"Meerschaum is mined like coal," said a pipe dealer. "It is a soft, soapy stone, and in Asia Minor its mining is an important industry. The crude meerschaum is called hamtash. It is yellowish white in color and a red clay coat or skin envelops it. The blocks cost from $25 to $200 a cart load. They are soft enough to cut with a knife. These blocks in summer are dried by exposure to the sun. In winter a heated room is necessary. Finally the meerschaum blocks are sorted into twelve grades, wrapped in cotton and packed in cases with the greatest care. The bulk of all this meerschaum goes to Vienna. There the best pipe makers in the world live."—Philadelphia Bulletin.

Lamb's Quaint Humor.

Charles Lamb once said that he hated a certain man.

"Do you know him?" Lamb was asked.

"No," he answered.

"Let me introduce you to him," said Lamb's friend.

"No," responded Lamb humorously, "for if I shall know him I am sure I shall stop hating him."—Philadelphia North American.

THE YELLOW FEVER.

Pensacola Getting More Hopeful—Science Wins at New Orleans.

Pensacola, Oct. 20.—The fever reports up to noon fail to make out a single case of fever except those of a mother and babe announced last night a few moments after the issuance of the official bulletin. The babe died this morning.

The situation yesterday gave much hope and for the twenty-four hours ending at 6 p. m. there were but seven new cases and two deaths.

Total number of cases, 448; total deaths to date, 65.

At New Orleans.

New Orleans, Oct. 20.—For the twenty-four hours ending at 6 p. m. last night there were eight new cases and no deaths reported. This record shows the triumph of science, and the fight made in New Orleans clearly shows the correctness of the mosquito theory.

Today only three cases are reported up to noon, with no deaths.

Total cases to date, 3,456; total number of deaths, 436

Hyde's Big Sale.

The farewell sale so extensively advertised to take place at G. W. Hyde's double store will begin at 9 o'clock this (Saturday) morning, and bargain hunters will find this their mecca. Mr. Hyde had declared his purpose to close out his business in this city, and is determined to give his patrons an opportunity to purchase goods at the lowest prices. The stock is all new fall goods and of the standard grades. Those who buy will find the bargains worth coming many miles to take advantage of, as they will be genuine.

Mr. Holder Here.

James Holder, formerly of Rochelle, where he was engaged in the naval stores and mercantile business, but now residing at Citronelle, where he is a member of the firm of Knight & Holder, naval stores, is spending a few days in the city, a guest of Dr. and Mrs. J. L. Kelley. This firm, which is already one of the most extensive in South Florida, is opening a new place of fifteen "crops" at Inglis, and expects to begin work in a few days.

Death of Young Man.

Marcus Mott, eighteen years of age, son of Mrs. Michael Clark of North Gainesville, died near Inverness, where he was employed, Thursday afternoon, of malarial fever. The news of his death came as a sad blow to the mother, as she had a letter Sunday bearing information that he was in good health. The remains were brought to this city Friday, and the interment will be held in Antioch cemetery today.

County Licenses.

County Tax Collector Dickinson has been busy making out licenses of late and the total issued up to October 20th, 1905, is 274. The amount received for State licenses is $1,652.50; for county licenses, $1,008. There has been about half as many take-outs this year as were paid up to the same time last year, and those who do not pay up between this date and November 15 may have to settle with the grand jury.

Plans to Get Rich

Are often frustrated by sudden breaking down due to dyspepsia or constipation. Brace up and take Dr. King's New Life Pills. They take out the materials which are clogging your energies and give you a new start. Cure headache and dizziness too. At all drug stores; 25c. guaranteed.

P. M. Oliver, who served the public so efficiently for a score or more years as auctioneer and real estate agent, but who has been on the "retired" list for some time, has engaged in the business, as will be seen by his card in today's paper. During his entire career in the business in the past Mr. Oliver never had a single complaint, he says, from those whom he served. His recent auction sale of the personal effects of J. M. Rudel gave entire satisfaction and the gentleman complimented him upon the result.
